LT1 MOBILE LAUNDRY DESCRIPTION:

LT1 is a fully functional mobile laundry, housed in a 48' trailer. The mobile laundry units have been designed with two internal electric water heaters, 8 washers and 10 driers. The mobile laundry trailer also houses table space for sorting and folding along with racking space for storage.

CAPACITY:

LT1 is fully capable of supporting over 250 people per day.

POWER REQUIREMENTS:

Mobile Laundry requires an electrical source. A 220v 100kW generator is needed to supply power to the laundry trailer. Generator must be hard wired in to the unit's two 200amp breaker panels.

POTABLE WATER REQUIREMENTS:

Mobile Laundry requires potable water source. A single ¾" potable garden hose connection is needed. In the event of no on site water location, the laundry can be supplied from a mobile tanker trailer.

GRAY WATER REQUIREMENTS:

Mobile Laundry also requires grey water drop site. Connection is made with a 2" male camlock fitting. If no city sewer drop exists, the unit is supplied with self contained 1350 Gal. holding tanks. A grey water removal service is required to drain tanks over the course of the operation.
